Professional Summary

Python Full Stack Developer with 8 months of hands-on internship experience building scalable web applications, REST APIs, AI-powered solutions, and cloud-native infrastructure. Skilled in Python, Django, Django REST Framework, FastAPI, React.js, PostgreSQL, Docker, Kubernetes (Amazon EKS), AWS, and Terraform. Experienced in developing production-ready applications, implementing CI/CD pipelines, and integrating AI technologies including RAG systems, vector databases, and LLM-powered services. Passionate about building efficient, maintainable software and continuously learning modern development practices.

Technical Skills

Programming Languages: Python, JavaScript (ES6+), SQL

Frontend: HTML5, CSS3, React.js, Redux, Tailwind CSS, Bootstrap

Backend: Django, Django REST Framework (DRF), FastAPI

Databases: PostgreSQL, Amazon DynamoDB, Qdrant Vector Database

Cloud & DevOps: AWS, Docker, Kubernetes (Amazon EKS), Terraform, GitHub Actions, CI/CD

Tools: Git, GitHub, Nginx, Redis, Celery, N8N

AI Technologies: LangGraph, RAG Pipelines, Vector Databases, LLM Integration, AI Microservices

Soft Skills: Technical Communication, Adaptability, Decision-Making

Professional Experience

Python Full Stack Developer Intern
Bridgeon Solutions LLP, Manjeri, Kerala

Sep 2025 – Present

- Developed responsive React-based user interfaces and reusable UI components for modern web applications.
- Built RESTful APIs using Django REST Framework and FastAPI for seamless frontend-backend integration.
- Designed and managed PostgreSQL databases for efficient application data storage and retrieval.
- Developed AI microservices using FastAPI and integrated Qdrant Vector Database for AI-powered functionality.
- Provisioned and managed cloud infrastructure using AWS, Docker, Terraform, and Kubernetes (Amazon EKS).
- Automated workflows using N8N and contributed to CI/CD implementation for deployment efficiency.
- Collaborated on full-stack application development following modern software engineering practices.

Featured Projects

BookSwap AI – AI-Powered Book Exchange Platform

Technologies: React/Vite, Django REST Framework, FastAPI, PostgreSQL, Celery, Redis, Qdrant, LangGraph, Docker, Nginx, AWS EKS, Terraform, GitHub Actions

- Architected and developed a production-grade AI-powered book exchange platform from scratch.
- Built REST APIs for book management, user profiles, exchange workflows, authentication, and administration.
- Developed a Retrieval-Augmented Generation (RAG) pipeline using Qdrant, Gemini embeddings, and Groq LLM.
- Implemented AI-powered swap matchmaking and personalized recommendation systems using LangGraph.
- Configured Celery and Redis for asynchronous task processing and image optimization workflows.
- Provisioned AWS EKS infrastructure using Terraform and automated deployments through GitHub Actions.
- Implemented JWT authentication, OTP verification, MFA, Google OAuth, WebSocket chat, and notifications.

E-Commerce Web Application

Technologies: React.js, Django, Django REST Framework, PostgreSQL

- Developed a full-stack e-commerce platform with secure authentication and order management.

- Designed RESTful APIs for products, shopping carts, users, and order processing.
- Implemented JWT-based authentication and PostgreSQL-backed data management.
- Delivered a secure and scalable application with modern frontend-backend architecture.

Student Learning Management System (SLMS)

Technologies: Python, Django, PostgreSQL

- Built a web-based learning management system for student and course administration.
- Implemented secure authentication and SMTP-based email verification.
- Developed profile management, course enrollment, and administrative control features.
- Created role-based management tools for users and course administration.

Education

Higher Secondary Education (Science)

GHSS Kavanur

Kerala State Board of Higher Secondary Education (DHSE)

2023 – 2025

Percentage: 93%

Training & Achievements

- Completed Frontend Development Training covering HTML5, CSS3, JavaScript, React.js, and Redux.
- Completed Python Full Stack Development Training covering Python, Django, Django REST Framework, and PostgreSQL.
- Successfully developed and deployed a production-ready AI-powered platform with cloud-native infrastructure and CI/CD implementation.
- Built multiple full-stack applications including an E-Commerce Platform and Student Learning Management System.

Languages

Malayalam: Native Proficiency

English: Professional Working Proficiency

Interests

AI & Automation • Web Development • Entrepreneurship
